

Group: _____

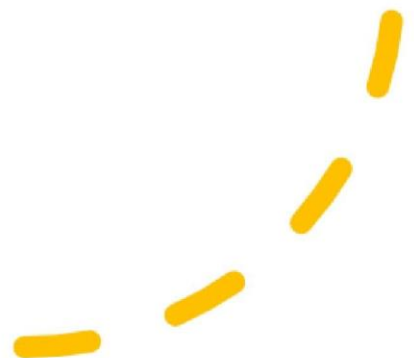

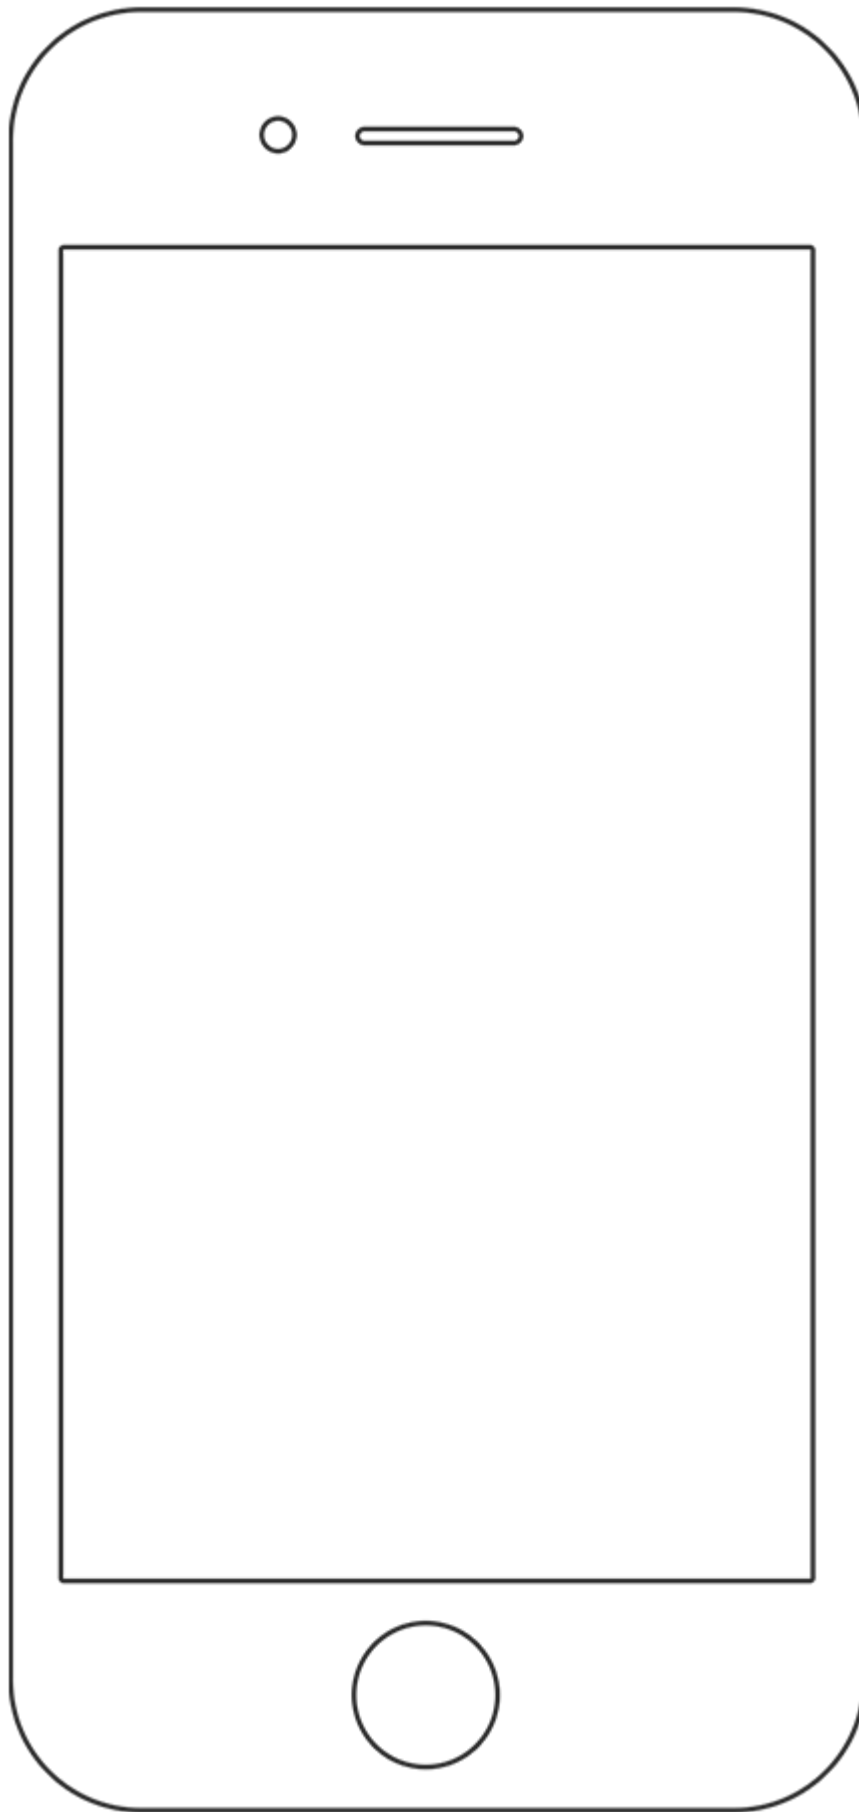

Exercise: Paper prototype

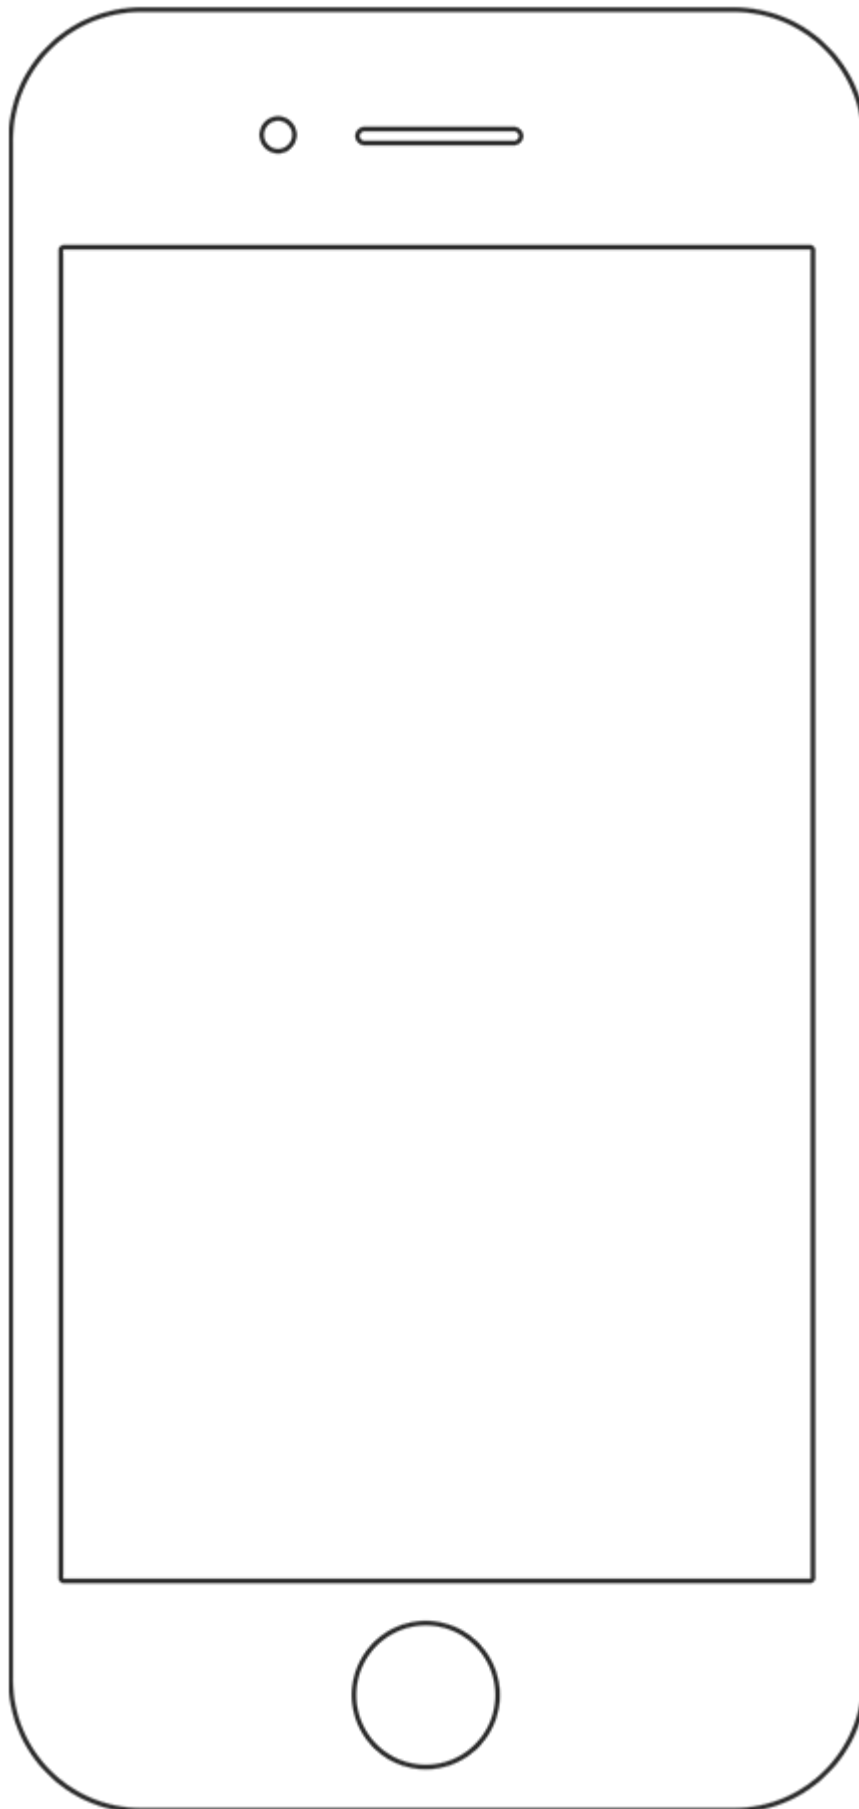

Draw/craft together with your group

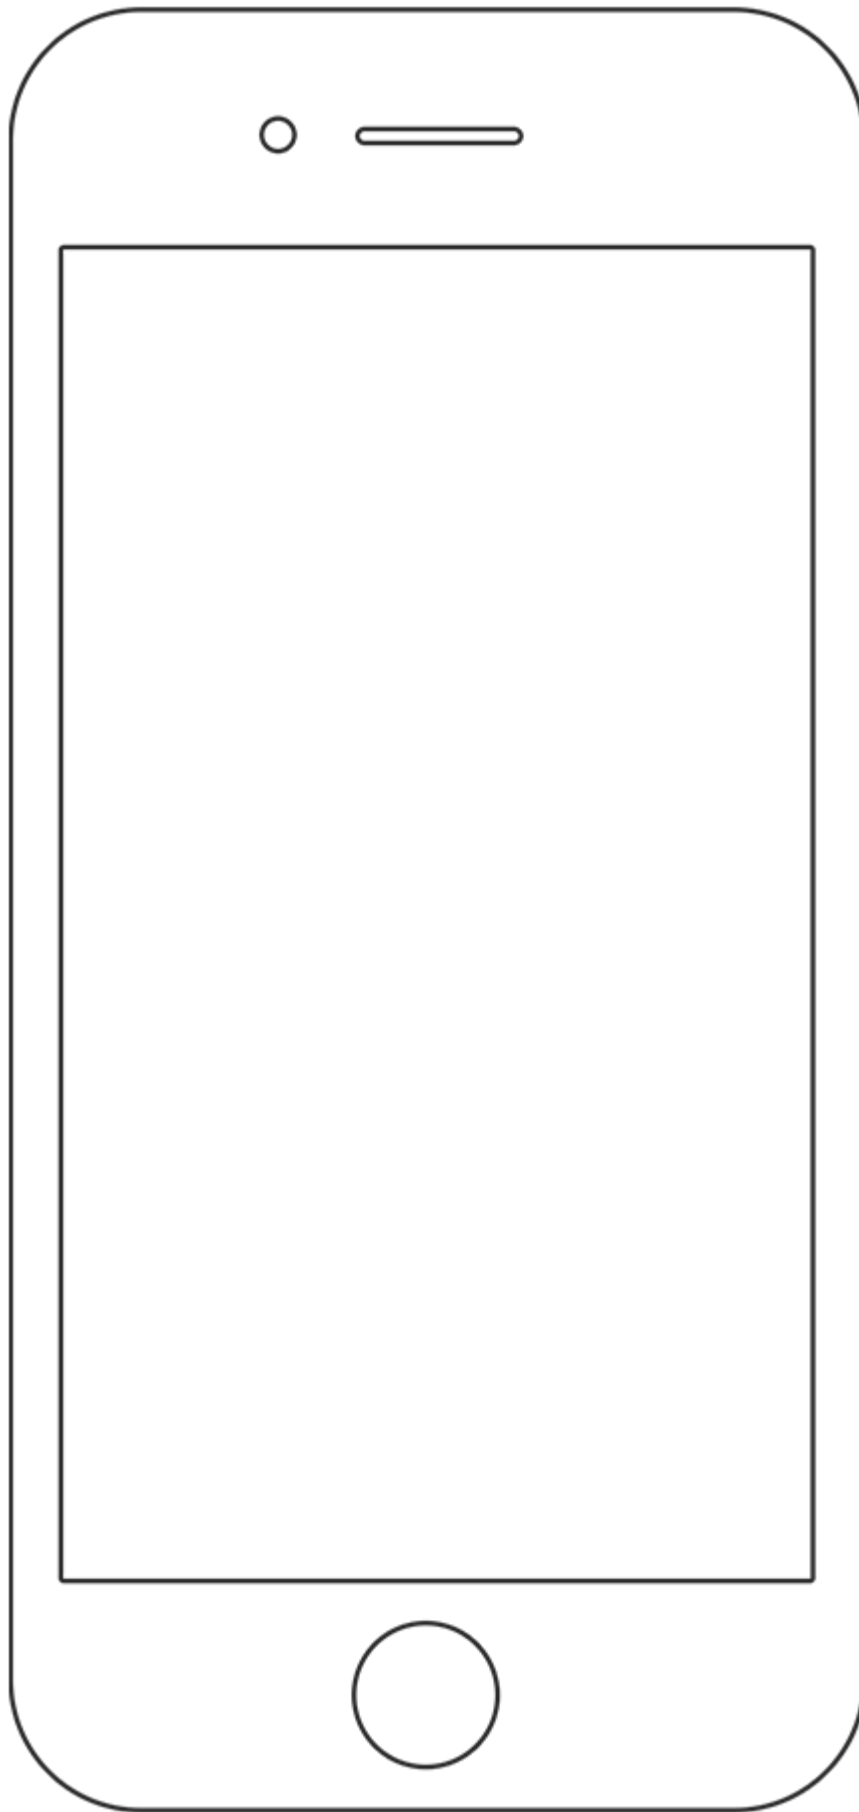

1. Go through the list of things that the user can do with your group's app.
→ These are the functionalities of the app.
2. Write below the list of functionalities you already have and add new ones if you need to.
3. Each member of the group is given one functionality, the view of which they will draw / cut and glue on the phone frame.
4. Arrange the functionalities how the user would see them when using the app.

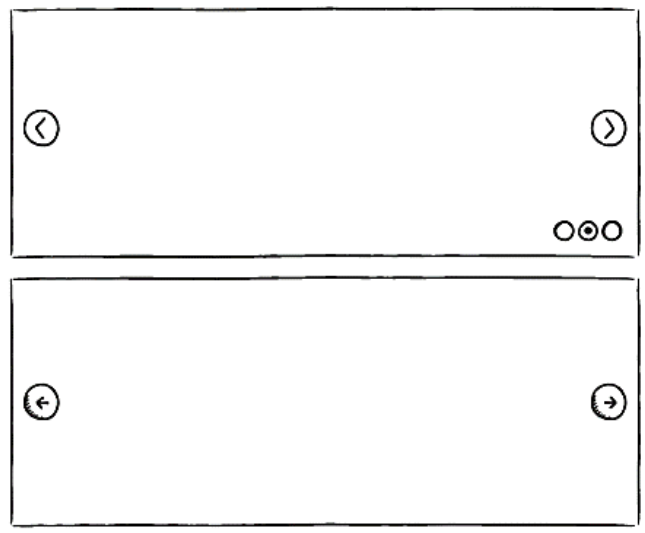

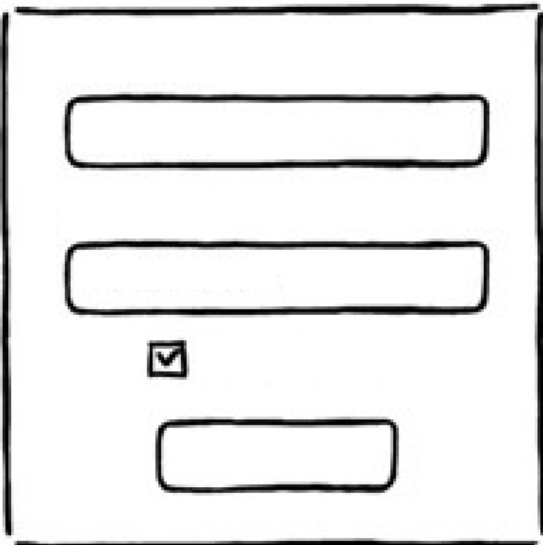

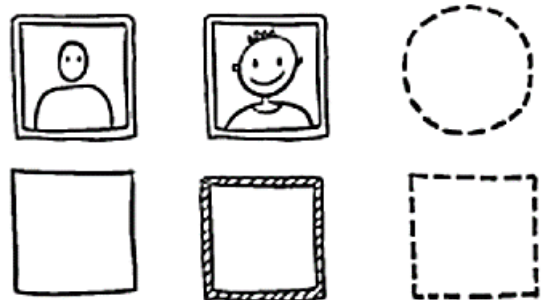

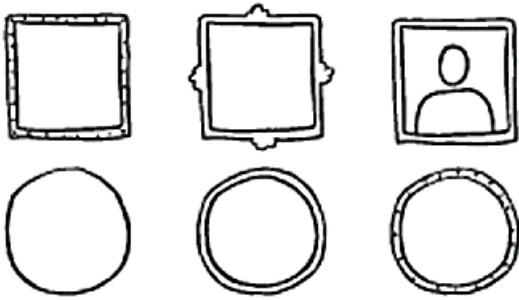

Functionalities?	Who draws the view?
